Prop 65 Declaration

Prop 65 & Nanofilm

What is California Proposition 65 (also known as “Prop 65”)?

Prop 65 is a California Law that requires businesses to warn Californians about certain chemicals in the environment and/or consumer goods. Also known as the Safe Drinking Water and Toxic Enforcement Act of 1986, Prop 65 was designed to assist California residents to make informed decisions about the products they purchase and the impact on their health. Warnings are based on a list of chemicals published by the State of California (over 850 to date) which may pose an increased risk of cancer and/or reproductive harm if minimum exposure levels, also known as Safe Harbor levels, are exceeded. These warnings are widespread within California and can be found across many industries including food and beverage sales, clothing sales, furniture sales, automotive repair, etc..

Where can I find out more?

For more information about Prop 65, the chemicals that have been listed, and how these chemicals may impact human health, please visit the State of California’s website at

<http://oehha.ca.gov/prop65/background/p65plain.html>.

Nanofilm Declaration,

Nanofilm’s products sold do not contain any items listed on the Prop 65 list (a list maybe found here <https://oehha.ca.gov/proposition-65/proposition-65-list>). Any chemicals listed on this site that maybe used for production are disposed/ recorded properly in accordance to any and all local and federal regulations.
