Revised 08-02-22

STATEMENT OF FACTS / RoHS Directive

In compliance with the European Union's Restriction on Hazardous Substances (RoHS) Nanofilm is providing the following statement of facts. The statement of facts address chromium that is present on our finished goods material that Nanofilm manufacture at the above location. Photo Blank is the trade name of the goods that Nanofilm manufacture and distributes internationally. The chromium present on the Photo Blank or on a resolved blank called a Photo Mask is elemental chrome and is not Hexavalent. The metal chrome films are deposited by a process called sputtering. The sputtering process utilizes a solid 99.97% pure elemental chromium cathode. Photo Blanks, Photo Mask, Carriers, or Packaging Boxes contain no Lead, Mercury, Cadmium, Polybrominated biphenyls (PBB) and Polybrominated diphenyl ethers (PBDE). Revised to include Bis(2-Ethylhexyl) phthalate (DEHP), Benzyl butyl phthalate (BBP), Dibutyl phthalate (DBP), Diisobutyl phthalate (DIBP) per the 2015/863 directive. For more information regarding the RoHS Directive and up to date developments you are encouraged to log on to www.RoHSwell.com.

Sincerely,

Vice President
Dale Burow
